FATIE Website Online

Check it out
<http://fatie2008.googlepages.com/>
It may also be logged onto through
www.facte.org
by clicking on the links category.

Our website template was conceived and designed by Ms. Casey Pope from Winter Haven High School through liaison with Linda Robinson, FBTEA President. Thanks to them both for stepping up and making this FATIE goal a reality.

We now need one or two FATIE member volunteer(s) to enhance and maintain the site. We need FATIE member involvement. Contact

FATIE President Brian Youngblood with your input and creative suggestions.

Skills USA Florida Championships

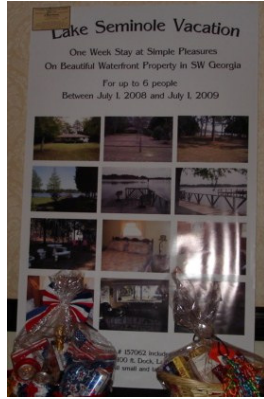

FATIE held a Special Business Meeting and a Professional Meeting of its membership on Tuesday, April 29, 2008 during the Skills USA Florida Championships. The focus of these meetings was to provide a convenient opportunity for FATIE members to receive professional development and discuss pending FATIE updates on membership recruitment, newsletter and website development and upcoming FATIE officer nominating procedures. Randy Duvall of Wyotech was our guest presenter and provided information on new technology in the automotive industry. His update on diesel fuel technology existing and under development was of great interest to those in attendance. The photo above is of FATIE President Brian Youngblood (left) and Speaker Randy Duvall.

2008 FACTE Scholarship Auction

Through the generosity of FATIE members and industrial suppliers, FATIE collected over 35 items for the annual FACTE scholarship auction which took place during the summer conference held this year in Jacksonville. The retail value for all these items totaled over \$2800. Auction items included two one-week vacation stays at Lake Seminole cabins and two wheelbarrows filled with trade related items. Auction proceeds fund scholarships for youth and totaled almost \$3,000 this year.

Congratulations FATIE!!!!

2008 FACTE Summer Conference

FATIE hosted five breakout sessions at the annual FACTE conference on Thursday, July 24th.

Session One featured Joseph Roesler from OSHA, covering safety in the workplace and OSHA's website. Session Two featured Hillis Davis from Carrier Corp. on going green in 2010. Session Three featured Pat Murphy, PAHRA/NATE on stu-

dent certifications. Session Four was the FATIE Business meeting. Session Five featured Eric Owens (our interim liaison) with an update. The State of Florida DOE is reviewing existing program curriculums for rewriting/updating. FATIE President Brian Youngblood is honored to be participating in the Architecture & Construction work group.

2008 FATIE Fall Conference—October 16 & 17 in Lakeland

FATIE members should mark their calendar and plan to attend the next annual joint conference with FBTEA, HOEAF and FAME scheduled for October 16 & 17, 2008 at the Lakeland Center in Lakeland. FATIE is now seeking program session presenters, as well as vendors who would like to exhibit.

FATIE hopes to double its number of FATIE members at the 2008 conference from 2007 in Melbourne. FATIE board member/officer elections will take place during this conference in accordance with FATIE By-Laws. Board members are in office for a one year term.

This is members' chance to step up to the plate, receive the baton, and carry the FATIE torch that has been relit and is now burning bright. Contact Brian Youngblood with your interest during September.-

Great organizations come from great leaders!

Please note—this list has NOT been updated since our last newsletter. FACTE will provide an updated list to us in September for printing in the next FATIE newsletter. If you have renewed or joined since last April your name may not be on this list.

FATIE is currently conducting a membership campaign to generate new members. We encourage FATIE members to forward this newsletter to potential FATIE members from their school or other professional organizations.

Thanks for your support!

FATIE President—Brian Youngblood, Atlantic Technical Center, Broward County (754) 321-5100
